Hampshire
PO15 5RL

We, Sepura plc believe it is safe to use the Occupational limits for RF Exposure for all our Carkit installations because:-

- Under normal operating conditions the vehicles concerned will be in motion therefore members of the general public will not be exposed to the occupational RF exposure level for any length of time that could be considerate to pose a risk to them.
- Given the nature of our customer base ie utility companies etc., when the vehicle is stationary it would normally be in a location that is not accessible to the general public.

Sincerely,

Company Officer: Steve Wood

Telephone Number: +44 (01223) 877354
